

REMARKS

Responsive to the election and restrictions requirement dated June 30, 2005, applicant elects species I of the invention directed to an undulator with a temperature-compensating material selectively arranged to compensate for a temperature-dependent change in the magnetic field. Claims 1-25 read on the elected species.

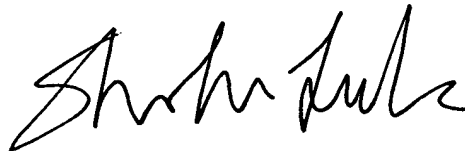

Further, applicant has added a new Claim 35, which is generic to both species I and II, and from which Claims 1 and 26 depend, as amended. Therefore, Claim 35 also reads on the elected species I. Upon allowance of the generic new Claim 35, all claims, including Claims 26-34 that currently read on the non-elected species II, should be allowable.

In summary, Claims 1-25 and 35 read on the elected species.

If the Examiner should have any questions, he is invited to contact applicant's undersigned attorney at the number set forth below.

Respectfully submitted,

CHRISTENSEN O'CONNOR
